## IMPORTANT NOTICES

OTC trading means that trading does not take place on a regulated exchange. There are no guarantees as to the credit worthiness of the counter party of your Forex, CFDs, Options and Spread Betting position. Also, there may be certain cases in which trading liquidity decreases, causing Forex, CFDs, Options and Spread Betting in commodities, currencies, metals and indices to cease, thereby preventing the liquidation of an adverse position which may result in a substantial financial loss.

VladoBrokers does not provide investment advice. The market recommendations, signals, information provided by and/or distributed by VladoBrokers are general in nature and based solely on the judgment of VladoBrokers's personnel or from third party information providers. Any market recommendations of, or information provided by, VladoBrokers does not constitute an offer to buy or sell, or the solicitation of an offer to buy or sell, any OTC transaction. Customer understands and hereby agrees that Customer is capable of, and solely responsible for, assessing the merits and risks of any trade it may enter into with VladoBrokers.

Customer understands that VladoBrokers does not permit its Customer representatives to either exercise discretion or manage an OTC account. If Customer's account is not being traded with Customer's authorisation, Customer must notify VladoBrokers immediately.

VladoBrokers's margin policies and/or the policies of those banks/clearing houses through which trades are executed may require that additional funds be provided to properly margin Customer's account and Customer is obligated to immediately meet such margin requirements. Failure to meet margin calls may result in the liquidation of any open positions with a resultant loss. VladoBrokers reserves the right to refuse to accept any order.

Customer understands that it must carefully review the reports relating to Customer's trading posted online by VladoBrokers. All reports of execution and statements of accounts will be deemed final unless customer objects within two business days of being posted. Objections may be made initially by email or by telephone, but must be confirmed thereafter in writing.

Customer understands that VladoBrokers may establish rules and provisions for client accounts, including but not limited to minimum account size, investment time period, commissions and fees, leverage size per instrument, mark ups, rules relating to stop losses and limits, rules relating to rollovers, rules relating to margin calls, or any other financial arrangement, and that such rules and provisions may be changed by VladoBrokers from time to time.

Customer has read and understands the Customer's obligations and rights under this Customer Agreement and agrees and acknowledges that this Customer Agreement, the Risk Disclosure Statement and the Privacy Statement will comprise the terms of the Customer's relationship with VladoBrokers. The Customer agrees that Customer is fully responsible for making all decisions as to transactions effected for Customer's account. Customer has considered the foregoing factors and in view of Customer's present and anticipated financial resources, Customer is willing and able to assume the substantial financial risks of OTC trading.

- 9.1 Options are contracts that give the buyer the right, but not the obligation, to buy (in the case of a Call Option) or to sell (in the case of a Put Option) a specified FX/CFD at a specified price (the "Strike") at a specified time and date (the "Expiration"), from or to the seller of the option. These are commonly known as European style vanilla options.
- 9.2 The proceeds of the purchase or sale of an Option (the "Cost", or "Premium") will be immediately debited or credited to the cash balance of the account. At Expiration, Options that are in the money will be automatically closed out at intrinsic value, that is, in the case of Call Options, the amount by which the closing price of the specified FX/CFD exceeds the strike price, and in the case of Put Options, the amount by which the Strike exceeds the closing price of the specified FX/CFD. For long Call and short Put positions, the closing price will be the prevailing bid price of the underlying FX/CFD at Expiration; and for short Call and long Put positions, the closing price will be the prevailing ask (offer) price of the underlying FX/CFD, as determined by Vlado in its sole discretion. Options that are not in the money will expire worthless.
- 9.3 The Customer acknowledges, recognizes and accepts that VladoBrokers quotes variable spreads on Options. The Client is specifically made aware that variable option spreads are affected by actual market conditions, which are beyond VladoBrokers's control. VladoBrokers does not guarantee any maximum or minimum quotable option spreads. There may be times when Options quotes are not available in some underlying FX/CFDs.
- 9.4 We allow you to perform various transactions, including in respect of options based on various indices that shall be defined by us from time to time (for example, index rates and stock and

option rates), and to receive financial information and various other services as we shall determine in our sole discretion. Prior to effecting any transaction, we advise you to read the explanations that may be found on the website regarding each type of transaction. The rules of trade are set exclusively by Vlado.

- 9.5 We will make available, by posting on [www.vladobrokers.com](http://www.vladobrokers.com), the current price applicable to a share or index, and offer you the opportunity to submit a put or call position in respect of such share. Each position shall be for a specified expiry time. We expect that the current prices will be reasonably related to the actual prices of such shares available in the market. We make no warranty, express or implied, that the quoted prices represent prevailing quoted prices.

# GENERAL TERMS & CONDITIONS

---

- 16.6 Neither VladoBrokers nor any of its subsidiaries, marketing partners or agents has liability or duty of indemnification related to unusable data, lost or corrupt Customer transactions or data, by whatever means, in whatever form.

## 19. MARKET ABUSE AND MANIPULATION

### 19.1 PROHIBITION ON ARBITRAGE AND MANIPULATION

- 21.1.1 VladoBrokers does not permit the practice of arbitrage when trading and strictly forbids any form of manipulation of its prices, execution, and platform or making transactions based on errors, omissions or misquotes on the VladoBrokers platform.
- 21.1.2 Price latency, connectivity delays, and price feed errors sometimes create a situation where the prices displayed do not accurately reflect market rates. The concept of arbitrage and "scalping", or taking advantage of these Internet delays, cannot exist in an OTC market where the client is buying or selling directly from the market maker.
- 21.1.3 Any transactions that rely on price latency or price feed errors may be subject to intervention which includes the right to void any transactions which VladoBrokers has determined to be a result of any of these practices, revocation of profits, widening of spreads, block of trading and any other necessary corrections or adjustments on the account without prior notice.
- 21.1.4 If VladoBrokers suspects or has reason to believe that Customer has abused the terms and conditions by hedging positions internally (using other trading accounts held with VladoBrokers) or externally (using other trading accounts held with other brokers), VladoBrokers reserves the right to cancel any trades or profits associated with Customer's account(s).

## 19.2 MARKET ABUSE

# GENERAL TERMS & CONDITIONS

---

21.2.1 VladoBrokers may hedge our liability to you by opening analogous positions with other institutions or in the underlying market. The result of our doing this is that when you trade with us your trades can, through our hedging, exert a distorting influence on the underlying market for that index, in addition to the impact that it may have on our own prices. This creates a possibility of market abuse.

21.2.2 Customer represents and warrants, and agrees that each such representation and warranty is deemed repeated each time Customer opens or closes a position that:

(a) Customer will not place and has not placed a trade with us relating to a particular index or any other CFD price if to do so would result in Customer, or others with whom Customer is acting in concert together, having an exposure to the price of the underlying financial instrument which can create a situation of market abuse.

This exposure can be equal to or exceeding the amount of a declarable interest in the relevant financial instrument. For this purpose, the level of a declarable interest will be the prevailing level at the material time, set by law or by the stock exchange(s) or other exchange upon which the underlying financial instrument is traded; and

(b) Customer will not place and has not placed a trade with us in connection with:

(i) a placing, issue, distribution or other analogous event;

(ii) an offer, take over, merger or other analogous event; or

(iii) any other corporate finance style activity, in which Customer is involved or otherwise interested; and

(c) Customer will not place or close a position and Customer will not place an order that contravenes any primary or secondary legislation or other law against insider dealing or market manipulation. Customer agrees that VladoBroker may proceed on the basis that when Customer opens or closes a position or places an order on a share price, Customer may be treated as dealing in securities within the meaning of the relevant statutes or regulations.

21.2.3 In the event that (a) Customer places or closes any trade or places an order in breach of the representations and warranties given, or VladoBrokers has reasonable grounds for suspecting that Customer may have done so, VladoBrokers may at our absolute discretion and without being under any obligation to inform Customer of our reason for doing so close that trade and any other trade or trades that you may have open at the time, if

# GENERAL TERMS & CONDITIONS

---

applicable, and also at our absolute discretion cancel any trades or profits associated with Customer's account(s)

21.2.4 Customer acknowledges that trade are speculative arrangements and Customer agrees that Customer will not enter into any transactions with us in connection with any corporate finance style activity.

21.2.5 Customer acknowledges that it would be improper for Customer to deal in the underlying market if the sole purpose of such a transaction was to impact on our bid or offer prices, and Customer agrees not to conduct any such transactions.

## 20. EXECUTION OF ORDERS, STOP AND LIMITS

20.1 VladoBrokers will use commercially reasonable efforts to complete all orders which it may, in its sole discretion, choose to accept in accordance with the oral or written or computer instructions of Customer.

20.2 VladoBrokers reserves the right to refuse to accept any order.

20.3 VladoBrokers may, at its sole discretion, allow Customer to specify a closing price for a transaction at the trading platform through a "Close at Loss" and "Close at Profit" order, subject always to the terms of this Agreement and any other terms and conditions VladoBrokers may implement from time to time.

22.3.1 "Close at Loss" means an offer to close a transaction at a price determined in advance by Customer which, in the case of a transaction that is opened by offering to buy a specific number of a certain instrument, is lower than the opening transaction price, and in the case of a transaction that is opened by offering to sell a specific number of a certain instrument, is higher than the opening transaction price.

22.3.2 "Close at Profit" means an offer to close a transaction at a price determined in advance by Customer which, in the case of a transaction that is opened by offering to buy a specific number of a certain instrument, is higher than the opening transaction price, and in the case of a transaction that is opened by offering to sell a specific number of a certain instrument, is lower than the opening transaction price.

20.4 Upon Customer's offer and VladoBrokers's acceptance of an order, Customer hereby authorizes VladoBrokers to close the transaction at the Close at Loss price or Close at Profit price, as applicable, and as agreed upon in the order, without further instruction from or notification to Customer.

20.5 VladoBrokers may, in its sole discretion, close the transaction when the price quoted by VladoBrokers on the trading platform equals the price accepted by VladoBrokers for such an order.

# GENERAL TERMS & CONDITIONS

---

- 20.6 Customer acknowledges and agrees that VladoBrokers shall not be obligated to close a transaction which does not otherwise comply with any other limitations agreed upon with respect to such transaction.
- 20.7 Customer acknowledges and agrees that due to market volatility and factors beyond VladoBrokers's control, VladoBrokers cannot guarantee that a Close at Loss order will be executed at the level specified in Customer's order. In such an event, VladoBrokers will close the transaction at the next best price.
- 20.8 If, before Customer's "Limit Order" offer to open or close a transaction is accepted by VladoBrokers, VladoBrokers's quote moves to Customer's advantage (for example, if the price goes down as Customer buys or the price goes up as Customer sells) Customer agrees that VladoBrokers will execute the closing transaction at the Customer's specified price and not better. Customer agrees that VladoBrokers can retain such price movement for its own account.
- 20.9 Customer is aware that a part of VladoBrokers's revenues derives from the spreads on each transaction. The spread is the difference between the bid & the ask price of the price quote on a transaction. Therefore, in case the fair market price reduces VladoBrokers's spread in a specific transaction, VladoBrokers may, at its sole discretion, choose not to execute such transaction, in which case VladoBrokers may send Customer an amended quote for his consideration. VladoBrokers may complete a transaction at its sole discretion in case the fair market price does not affect VladoBrokers's spread from the transaction and / or increases it.

## 21. RISK ACKNOWLEDGMENT

- 21.1 Customer acknowledges that investment in leveraged and non-leveraged transactions are speculative, involves a high degree of risk, and is appropriate only for persons who can assume risk of loss of their entire margin deposit.
- 21.2 Customer understands that because of the low margin normally required in OTC trading, price changes in OTC may result in significant losses.
- 21.3 Customer warrants that Customer is willing and able, financially and otherwise, to assume the risk of OTC trading, and in consideration of VladoBrokers's carrying his/her account(s), Customer agrees not to hold VladoBrokers and any of its subsidiaries, marketing partners or agents responsible for any losses incurred by Customer.
- 21.4 Customer recognizes that guarantees of profit or freedom from loss are impossible in OTC trading.
- 21.5 Customer acknowledges that Customer has received no such guarantees from VladoBrokers or from any of its representatives or any introducing agent or other entity with whom Customer is conducting his/her VladoBrokers account and has not entered into this agreement in consideration of or in reliance upon any such guarantees or similar representations.

# GENERAL TERMS & CONDITIONS

---

21.6 The high degree of leverage that is obtainable in the trading of Forex, CFDs, Options and Spread Betting transactions can work against you as well as for you. Leverage can lead to large losses as well as gains.

21.7 During times of extreme volatility it can be difficult or impossible to execute orders.

## 22. MARKET RECOMMENDATIONS AND INFORMATION

22.1 Customer acknowledges that:

- (i) Any market recommendations, signals and information communicated by any method of communication to Customer by VladoBrokers and any of its subsidiaries, marketing partners, agents or by any person within VladoBrokers does not constitute an offer to sell or the solicitation of an offer to buy any OTC contract, and that VladoBrokers does not provide investment advice
- (ii) Such recommendation and information, although generally based upon information obtained from sources believed by VladoBrokers to be reliable, may be based solely on a broker's opinion and that such information may be incomplete and may be unverified, and
- (iii) VladoBrokers makes no representation, warranty or guarantee as to, and shall not be responsible for, the accuracy or completeness of any information or market recommendation furnished to Customer and shall not be responsible for any loss or damage including without limitation any loss of margin or profits which may arise directly or indirectly from use or reliance on such recommendations or information.

22.2 Customer understands that Customer is solely responsible for assessing the merits and risks of any trade it may enter into with VladoBrokers whether as a result of information provided by VladoBrokers or otherwise.

22.3 Customer acknowledges that VladoBrokers and/or its officers, directors, marketing partners, associates, stockholders or representatives may have a position in or may intend to buy or sell Forex, CFDs, Options and Spread Bets, which are the subject of market recommendations furnished to Customer, and that the market position of VladoBrokers or any such officer, director, marketing partner, associate, stockholder or representative may not be consistent with the recommendations furnished to Customer by VladoBrokers.
